

A WHOLE LOT

**You can't stop the rain from soaking you to the bone
Or stop icy weather from putting plumbing in a kink
You can't stop a tornado from its path of terror
But, you can control a whole lot of what you think**

**You can't stop a cold wind from blowing in your face
Or stop from sweating on a blistering hot day
You can't stop an earthquake from destroying your home
But, you can control a whole lot of what you say**

**You can't stop a hurricane from beating upon your house
Or stop a forrest fire from altering a mountain view
You can't stop a mighty river from flooding a helpless town
But, you can control a whole lot of what you do**

**You will always feel trial and adversity in life
There are times our problems make us stew
But, not matter how difficult the tribulation
We control a whole lot of what we think, say and do**
